Special session on

Disaster resilience of communication networks

October 16, 2019

Submission link (EDAS): <https://www.edas.info/newPaper.php?c=25838&track=95398>

The topics cover, but are not necessarily limited to the following:

- Evaluation of vulnerability of communication networks to natural disasters
- Design of communication networks with improved resilience under natural disasters
- Resilient routing under disaster-induced failures
- Resilience of communication networks under weather-induced disruptions
- Technology-related disasters and their impact on resilience and performance of communication networks
- Evaluation of vulnerability of communication networks to malicious human activities
- Design of communication networks with improved resistance to attacks

Paper page limit: 7 pages (US Letter size, IEEE two-column conference template:

<https://www.ieee.org/conferences/publishing/templates.html>)

Deadlines:

- Paper submission: **August 9, 2019**
- Acceptance notification: September 3, 2019

Session Chairs:

- Marija Furdek, Chalmers University of Technology, SE
- Jacek Rak, Gdansk University of Technology, PL
